∞ PROFESSIONAL SUMMARY

Full-Stack Java Developer with hands-on experience building scalable web applications using Java, Spring Boot, and React.js. Skilled in designing RESTful APIs, implementing secure authentication (JWT, Spring Security), and working with relational databases (MySQL, PostgreSQL) through JPA/Hibernate. Proficient in containerization with Docker and API testing/documentation using Postman and Swagger. Demonstrated ability to build end-to-end applications independently, as shown through personal projects like StaffDesk and HireFlow, alongside practical exposure gained through web development internships. Strong foundation in OOP principles, microservices architecture, and modern frontend frameworks, with a keen interest in writing clean, maintainable code and continuously expanding technical expertise.

🧠 SKILLS

Programming Languages

Java (Core Java, OOP, Java 8+ Features – Lambda, Streams, Functional Interfaces)

Frontend

React.js, Thymeleaf, Html, Css, JavaScript

Messaging/Caching

Kafka, Redis

Testing/API Tools

Postman, Swagger, AOP

Build Tool

Maven

Backend Frameworks

Java EE, Servlets, JSP, JSTL, Spring Core (IoC, DI), Spring JDBC, Spring ORM, Spring Web MVC, Spring Boot, Spring Data JPA, Spring Security (JWT)

Database/ORM

JDBC, Hibernate/JPA, MySQL, PostgreSQL

DevOps

Docker, Microservices Architecture

Version Control, IDE

Git, GitHub, GitHub Desktop, Eclipse, VS Code

Soft Skills

Collaboration, Communication, Time Management, Teamwork

📁 EXPERIENCE

Web Developer Intern

DigiWork Online Services & Consultancy LLP

01/2026 – Present

Pune, India

- Developed and maintained full-stack web applications using **Spring Boot** for backend services and **React.js** for building responsive, component-based user interfaces.
- Designed and implemented RESTful APIs with Spring Boot, ensuring clean architecture and efficient data flow between frontend and backend.
- Documented and tested APIs using **Swagger** for interactive API specifications and **Postman** for endpoint validation, request/response testing, and debugging.
- Containerized applications using **Docker**, streamlining development environment setup and ensuring consistency across deployment stages.
- Collaborated with the development team to integrate frontend and backend components, troubleshoot issues, and deliver functional features within project timelines.
- Gained hands-on experience with the full software development lifecycle — from API design and implementation to testing, containerization, and deployment readiness.

Web Development Intern

SystemTron

06/2025 – 12/2025

Pune, India

- Worked on web development tasks as part of a structured internship program, gaining hands-on exposure to real-world development workflows.
- Collaborated with the team on building and testing web-based features, strengthening practical skills in front-end and back-end development.

PROJECTS

StaffDesk – Employee Management System

- Built a full-stack Employee Management System with a Next.js 14 + TypeScript dashboard and a Spring Boot REST API, covering employee, department, attendance, and leave management modules.
- Implemented JWT-based authentication with Spring Security, Spring Data JPA for persistence, and Flyway for versioned database migrations; containerized the backend with Docker and deployed the frontend on Vercel.
- Tools Used: Next.js, React, TypeScript, Tailwind CSS, Framer Motion, Recharts, Java, Spring Boot, Spring Security, Spring Data JPA, Flyway, Maven, Docker.

HireFlow – Job Portal Web Application

- Built a full-stack job portal in Java (Servlets, JSP, JSTL) supporting three roles – seeker, employer, and admin – with secure BCrypt-based authentication.
- Designed a PostgreSQL schema for jobs, categories, and applications with status-driven lifecycles (pending to active to closed/expired) and containerized the app with Docker for deployment on Render.
- Tools Used: Java, Servlets, JSP, JSTL, PostgreSQL, BCrypt, Apache DBCP2, Gson, Maven, Docker.

EDUCATION

Master's in Computer Application

APCOER, PUNE

2025 – Present
Pune

B.Sc. Computer Science

Modern College of Arts, Science and Commerce

2022 – 2025
Shivajinagar, Pune,
India

HSC (Class XII)

Modern College of Arts, Science and Commerce

2021 – 2022
Shivajinagar, Pune,
India

SSC (Class X)

Sardar Dastur Hoshang Boys High School

2019 – 2020
Pune, India

ACHIEVEMENTS AND CERTIFICATIONS

Certificate Course in Java Programming

NSG Academy

(3 Months, 90 hrs) with a Grade of A+.

07/2025

Web Development Internship

SystemTron

Recognized with an official completion certificate.
